1.	<u>Ref.: 2022641</u>	Can you extend the deadline by one week since I only became aware of the call for tenders the day before yesterday?	The conclusion of the contract is urgent, so we are not considering an extension.	14.07.2022
	<u>Ref.: 2022641</u>	Have questions already been asked by other bidders. If so, can you provide me with these and the answers to them?	We didn't receive any other questions so far.	14.07.2022
	<u>Ref.: 2022641</u>	Page 2 of the document "Ref.: 2022641 - Instructions for submissions of quota" speaks of 132 hours. On page 3, 264 hours are indicated. Which information is correct?	132 days (as defined in the contract), 264 hours (2 hours per day), are the correct amount.	14.07.2022
	<u>Ref.: 2022641</u>	The following paragraph shall require an explanation. Should this become part of the treaty?	This paragraph refers to "technical or medical supplies" - therefore not applicable here.	14.07.2022

	<u>Ref.: 2022641</u>	The ToR demand a study of pedagogy. Is that so. Is it enough to study social sciences?	Yes, if the comparable degrees also meet the requirements.	14.07.2022
	<u>Ref.: 2022641</u>	Can documents also be submitted electronically? If not, is the postmark proof of timely submission? Or do the documents have to be in Berlin at the DRK on 15 July by 1200h?	No, such a drastic change cannot be made that easily - respectively, an extension of the deadline would then have to be granted. The documents define, that bids can only be submitted by post.	14.07.2022
	<u>Ref.: 2022641</u>	Which are mining tools that are considered equivalent experience/competence to DEEP? Ask for examples.	We don't have specific examples, but we are open to see and evaluate in case this information is provided.	14.07.2022
