

Answer to bidder question from June 11th, 2021

Question about the tender “Expert advisory services and development of knowledge products on Forecast-based Financing (particularly in the areas of Early Action, Monitoring & Evaluation and Research)”

Question 1:

“Submission of proposal in encrypted E-Mail, which is protected with a password as attachment (...)”

What exactly should be password protected, the e-mail or the attachments or both? Does the password need to be sent via e-mail separately?

Answer to Question 1:

To ensure that the proposal is submitted safely via E-Mail, it is necessary to use a password for protection. The password will be needed to open the attachment, featuring the proposal and all required tender documents. The password can be sent in a separate E-Mail.
